UNCOVER THE EPIC STORY PRECEDING #1 SELLER, AGAREST: GENERATIONS OF WAR

Following hot on the heels of the number 1 top selling epic SRPG “Agarest: Generations Of War”, Ghostlight are proud to announce its prequel “Agarest: Generations Of War ZERO” bringing an enticing blend of in-depth strategy and epic multi-generational storytelling to Steam!

...From the void, the gods of darkness and light created Agarest, a most perfect and divine world. As the generations passed, paradise sadly fell to the ravages of time. War darkened the skies and Agarest soon became a torturous hell as the gods divided and immense armies clashed, desecrating the once beautiful land...

After many years with the war in deadlock, Sieghart, a young officer loyal to the armies of light, passes through the scarred mountains on a perilous mission. There, he meets a strange girl and unknowingly changes the fate of the world forever.

 - Featuring stunning new and beautifully animated character portraits.
 - The Soul Breed System returns! Unite with your chosen bride to shape the fate of the next generation of heroes

Agarest: Generations of War ZERO exclusive game features!

Agarest: Generations of War ZERO contains many of the unique features found in the first release of the series such as **Extended Areas** allowing you to chain attacks together in huge combos, the **Blacksmith's Guild** for experimentation in crafting of items and weapons and of course, the **Soul Breed System** where you must carefully choose your bride as this decision will directly affect following generations.

In addition to these existing game features, the following new features have been added:

The new **Vacation Days** allow you to get to know your party members better and unlock bonus items and locations by visiting various places in the towns. Also, as you build your relationship with the rest of your party you will unlock new costumes for them to wear.

Character portraits displayed during conversations have been vastly improved with the implementation of **Motion Portrait**. This brings characters to life with subtle animations really helping to enhance the stunning artwork.

With various other changes such as improved graphics and a brand new **Card Skill System** to allow you to customise your starting character, this is a prequel you won't want to miss.

Exclusive to the PC version, this new and improved version of Agarest: Generations Of War ZERO now features **Cloud Saving** (which has also been added to Agarest: Generations Of War very recently). We've also added the ability to decide which direction you wish the controls to be offset along with a revamp of the DLC menu giving you control to pick and choose how DLC is added to your existing saves. As expected there is full mouse and keyboard support, full gamepad support, Steam achievements, higher resolution art and a number of other user interface changes to ensure that PC gamers receive the best gaming experience possible. We are pleased to announce that a selection of collectible **Steam Trading Cards** are featured, whilst DLC is included in the game completely free of charge with other bundle packs of DLC available to purchase separately after release.
