i enjoy this game so i rate it 10/10. looked good seemed to promised lots of sexy girls but..... it was lackluster, story seemed lame and flat animation was alright but for 2017 should be a bit better, It's worth it if you can get it for \$2.. The sequel to Beach Bounce, it involves a beauty pageant being held at the resort as there seems to have developed a funding issue. You can romance (or in some cases, just have fun) with a myriad of girls. "Happily Ever After" is relative on some of them, though.. Good anime tidie. Good no More. This is another great game, love to play them, all I need do is press the left mouse button 99% of the time and once in a while make a decision (perfect for male players (pun intended)) Buy and play this game my opinion.

Only problem I had, played for 100 hours and still could not get any of the girls to take their clothing off they would just bounce me out the door < pun intended.. Had fun playing Beauty Bounce as I did Beach Bounce.

I enjoyed the characters, music, BG, and the story. I still like Yuki as she is just cool. I believe all the music is the same as Beach Bounce. I'm not sure about this as it's been awhile since I've played Beach Bounce. Regardless even if the music is the same as Beach Bounce I like the music a lot:)

Seeing the picture with the closed resort was sad:(I also really liked the picture with Emiko and Tomo dancing together. The picture was very nice:)

Hehe the harem ending I enjoyed a lot;) Tomo was definetly having fun in the harem ending:)

Plus there is a patch so make sure u download the patch to play the adult content:)

Quite honestly the only problem I have with this VN is that it was short:(I wish it was longer because everything in my opinion felt rushed. We have three new characters but I feel like I don't know them well. I enjoyed the pagent part but it was very rushed segment:(I wish we somehow dragged Sakura to join the pagent. Would of been interesting to see Sakura join the pagent

Overall I had fun playing Beauty Bounce. I wish Beauty Bounce was longer and not a short VN.

. A huge step down from the first installment... basically there is only 1 scene, always at the same point, for each girl, and only 1 per playhtrough... In comparison, you could get 2-4 or so in the 1st game.. which was also at least twice as long... With the patch, still decent scenes which do their job, but compared to the first game just worse in every way. 4/10.

Bought this game for 15% off, with the Patch ofcourse

To start things, story is kinda linear, choices you make just changes the girl you choose Aiko best grill some paths is just dialogues nonsense,

Spent about a hour or so to get the achievements with some skipping here and there

The nudity overall is meh, Harem ending is good tho

Overall considering its Dharker Studios what do you expect

I reccommend you buying it on sale better than 15%

For me Its an improvement on the previous titles

Rate: 6/10

(Had to afk the game because of the issue in card drops). The story needs a lot more work, sure the art is nice, but without a good story it's just not a good visual novel. If you're more so in it for porn or ecchi then it's great for you I suppose, but personally I buy visual novels for a good story, and this one is extremely lack luster (way over priced seeing I have 2 endings and have played an hour, and I'm a fairly slow reader, so it says a lot about how short the game is.. seeing there are 5 endings it will be extremely repetitive).. The story needs a lot of work. Its extremely dull and boring.. I fapped myself to 100% acheivs and all hidden galleries.

I used to fap for no reason, now all those years of fapping is finally paying off.

10/10 Would fap my way to acheivments again.. Too short, only dialouge through the entire game. Nope this one was a disappointment :(.. looked good seemed to promised lots of sexy girls but..... it was lackluster, story seemed lame and flat animation was alright but for 2017 should be a bit better, It's worth it if you can get it for \$2.
