This game might be new and all but there is way too many bugs for released.(No stamina, frozen characters, getting stuck in the blocking animation and getting stuck in walls). goat explode and fly high. i like licking the toaster. This content mostly revolves around the new "Area X". It's not bad, and I'm not going to look a gift horse in the mouth, it's just not exactly what I was hoping for.. Multiplayer is dead, brothers. The story is sheer violent, satisfying, sweet bolter/melee porn. The best game in the history of video games. It is a nice classic tank battle arcade game with lots of different levels.. Short game, worth the money.

It's a platformer with charming doodles, which includes some neat animations and fitting music. Gave me some smile on my face!

The music was a bit loud though and I think that couldn't be changed ingame.

So if you're a bit depressed and got an hour, then grab that one and free your mind.. The writing isn't good. It's going for melancholy but it just never feels right, it lacks any kind of dramatic urgency, it's self-indulgent. The mechanics are minimal. You walk. You press E to engage. There are no verbs here. The game wears its ideas on its sleeves.

I would not recommend it, but it's pretty, I'll give it that.. Now is the PERFECT TIME TO GET BLACK OPS 3 (mostly for zombies)

Here's why

Bo4 Zombies ♥♥♥♥ing sucks - okay it doesnt suck but it's missing the charm the all previous Black Ops games. Weapons variety is lackluster in Bo4 but there's a good amount of weapons in Bo3. Don't like em? Mod the game so you can have Bo1 weapons or Bo2 weapons, or MW weapons, EVEN HALO WEAPONS.

The revival of Modded maps - When Mod tools were introduced we had alot of lazy challenge box maps that Zombie Youtubers just eat up. Cheese cube and Octagonal Ascension are a few culprits. (they arent the lazy ones but you get my point)

Zombie Chronicles exists

other mods like a Wario Ware esque game

8 Player Grief Mod

and a plethora of other reasons.

As for Multiplayer, its sorta alive, It's not as alive as other games like MW2 or Bo2 but it still has enough players to get a match going. Even though it has Exo Movement it's executed perfectly.

As for Singleplayer it's okay, I only found real enjoyment in coop and Nightmare mode.

The price is pretty expensive, What i recommend is getting it off a Keysite but Buy all the DLC on here or Humble. or if it's on sale for 30-45 dollars, it's still a good buy because now it comes with zombie chronicles. Black Ops 3 is honestly a master piece of a game for zombies, even though it has a soulless gobblegum system, it's made with love and the same amount, if not more is being put into the game by the players and modders. Pick it up ASAP

It takes a very special set of skills to screw up a HOG.. Nice dlc but I can't figure out how to activate it :(someone help!. I bought this on a whim not expecting it to do anything more than help fill some spare time, and the game turned out to be an excellent way to fill that time. The first few levels teach you how to play, without obviously being a tutorial or babying you along. It is extremely gratifying to complete the puzzles; blowing up piggy banks and a safe is a lot of fun. Each level has a time limit which is often challenging, and this adds to replayability. It's easy to get hooked and play level after level.

The music is upbeat and tuneful, this is one of the few games where I haven't bothered to mute the soundtrack.

Finally, the game is polished and free of bugs and I highly recommend it.. **Disclaimer: You'll find nothing useful in this DLC, only cosmetics and bonus content.**

In game features:

- + 5 awesome hats, 1 per hero
- + 2 absolutely useless cosmetic trinkets

Other: (in your game's directory)

- + magnificent soundtrack by Jesper Kyd (wishing they updated it with story DLCs soundtracks)

Upd: THEY DID! :D

- + artbook
- + lore friendly map of Ubersreik and friendly neighborhood
- + short development vid

Summary:

Nice way to support awesome developer and look cool in the process, but nothing more. Keep up the good work Fatshark!. It's okay for a short game but I want shortcuts, not click and drag, a pause button so I can put my defenders properly and a halo showing how my defenders' reach. It is also difficult to grind for coins for upgrades imo
