

---

The time has come for you to start living the life you want. You know that there is a lot of knowledge out there and teaching yourself certain skills and techniques can give you an edge over your competition. However, learning can be difficult and sometimes overwhelming. There's no shame in saying that you need help - we all do! Luckily, the educational landscape is changing rapidly with technology! We've compiled 37 best websites to learn something new. It's time to get off the sidelines and join the game! You're never too old to learn about something new like how to make a website or draw better sketches or spark awareness for mental health issues.

This list of educational websites is an assortment of free sites that can help you learn something new or refresh forgotten knowledge. Some are meant to teach children, while others are geared towards adults. The topics vary, but the one thing they all have in common is the ability to help you learn something new!

Academic Earth Academic Earth provides online video courses for college level courses in almost every major field of study.
